## COLOMBIAPLAST 2022

The successful previous edition attracted over 36,000 attendees (including those attending the FIB - Bogota International Industrial Trade Fair, which takes place concurrently). Visitors experienced advancements in the field of plastics, rubber and petrochemicals. A total of 207 exhibitors participated, including 61 international companies from Argentina, Germany, Portugal, Austria, India, Spain, Brazil, Italy, Taiwan, Chile, Mexico, USA, China and Poland, along with 146 national exhibitors.

ColombiaPlast 2022 was the first edition of the partnership of Corferias and Messe Düsseldorf North America, the US subsidiary of the renowned K trade fair organizer.

### Petrochemical-plastic production chains in Colombia contribute:

15% of Colombia's manufacturing GDP.

1.55 million tons of plastic materials transformed annually.

USD 143 million in annual imports of machinery, parts, and molds for plastic processing.

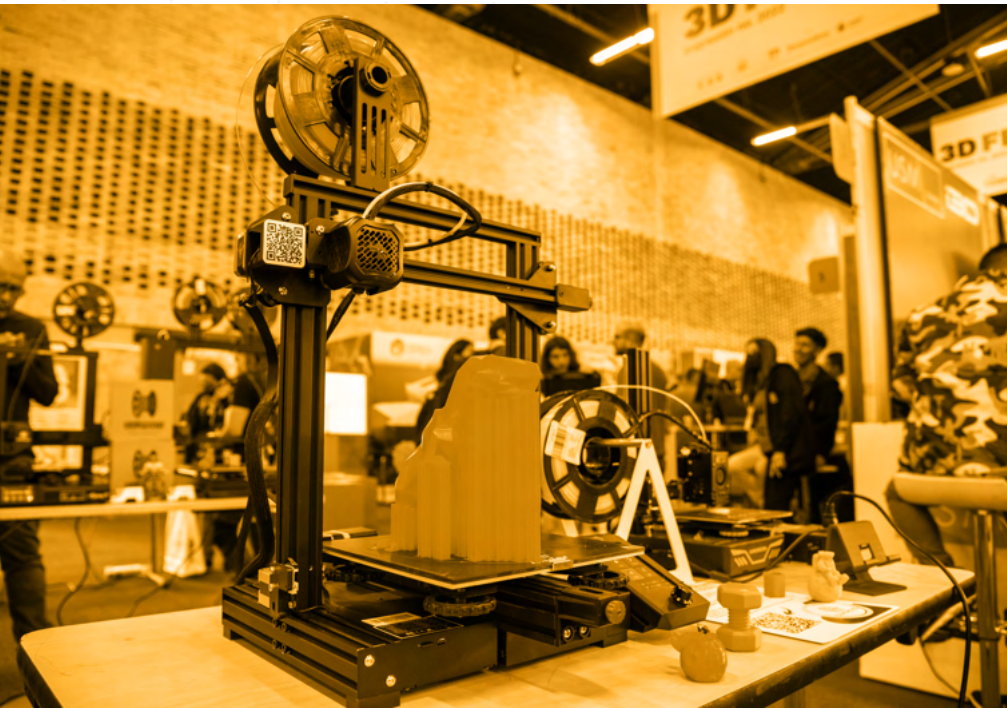

## ACADEMIC PROGRAM

The ColombiaPlast trade fair was complemented by an academic program that showcased trends in innovation, sustainability and productivity. In addition, it offered solutions to the key challenges affecting the represented industries.

## GO PLASTIC

This strategy aims to stimulate the recycling markets in Colombia through a series of calls to action aimed at entrepreneurs who may offer solutions for market failures and bottlenecks in the plastics-recycling industry.

Within the framework of ColombiaPlast, the Go Plastic experience zone is the first showroom for companies and ventures that are committed to closing the cycle.

## 3D FEST

This is the meeting place for entrepreneurs in the 3D-printing and additive-manufacturing industry. It aims to showcase details regarding the scope, possibilities and implementation of 3D printing in different industries through discussions, forums and success stories, as well as commercial and experiential exhibits.
