

# *Be on the safe side and build your stand directly with us!*

When it is time to be thinking about **how to make a great impression** in Düsseldorf, **we can help!**

Messe Düsseldorf North America has established partnerships with several outstanding stand builders that offer creativity, budget-consciousness and excellent customer service.

A custom-designed stand can be extremely lavish or very cost-effective, but in either case, the design will reflect your company's personality. If you would like to see more samples of recent stand design projects we have coordinated for other American exhibitors, please let us know.

Our stand design liaison is **Allison Nijim**. She will be able to guide you through the design process, determine which of our stand builders would be best for you, and coordinate proposals. You can reach her at [anijim@mdna.com](mailto:anijim@mdna.com) or (574) 344-3333.
